

CLARKE'S HARDWARE

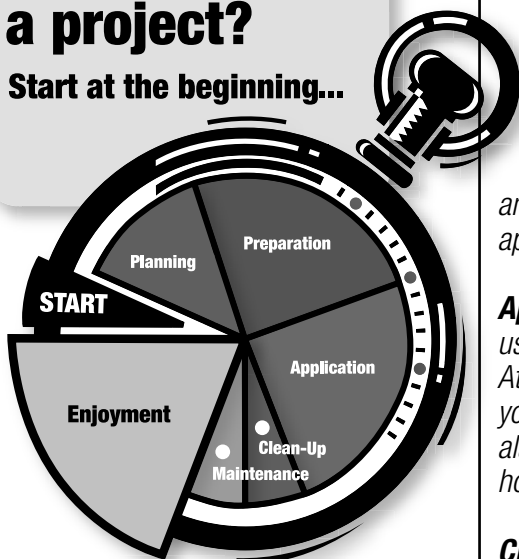

What you need. How to do it.

Think Entire Project

What you need.

**Need to tackle
a project?**

Start at the beginning...

Better results. More Fun.
Save time. Save money.

How to do it.

Planning is the first and most important step. In the long run, planning saves time, money and energy. **Our knowledgeable staff makes the difference because they can help you plan just about any project.**

Preparation is 80% of most jobs. Take painting, for instance. For the best results, first clean, spackle, caulk, and sand. Then, see how easy it is to apply the color.

Application is much smoother when using the appropriate tools and supplies. At Clarke's, we sell the quality materials you'll need for your entire project. We also have the expertise to show you how best to use these products.

Clean Up should be easy if you've spent the time in planning and preparation. Think of clean up as an unveiling—of a job well done!

Enjoy the process of turning your initial idea into a finished project, the satisfaction of the completed job, plus the additional free time you'll gain by doing the job right the first time.

**When you think of Clarke's — Think Entire Project.
And get the results you want.**
