

CLARKE'S HARDWARE

What you need. How to do it.

Be Fire Safe!

What you need.

Have a home fire escape plan!

- Draw a floor plan map of your home showing all doors and windows.
- Mark two ways out of each room. There should be a smoke alarm in each sleeping room, outside each sleeping area and on every level of your home.
- Pick a family meeting place outside where everyone can meet.
- Most IMPORTANT—
Practice your plan twice each year, test and replace the batteries in all of your smoke & CO2 detectors and recharge or replace old fire extinguishers!!

Whether it's smoke & carbon monoxide detectors, batteries, fire extinguishers, fire escape ladders or chimney sweep logs—**Clarke's has what you need to make your home or business a safer place!**

How to do it.

**Need help, or have questions?
Our staff can assist you.**
